Response submitted to WDC 20.12.24:
Members have commented that there is not enough mapping info on the documents to make an informed decision. At present, members feel they are unable to make comment on this application, as they cannot judge how this will affect the neighbours' properties, and it also makes it difficult to judge any potential access issues.
We also wished to find out why the previous applications for this site were refused. However, the details are not held on the WDC website and the Planning Officer was also unable to provide the information.
Could the full site plan and historic refusals information be provided so that members can then make an informed response, please?
